

## Hootenanny Dash BULLETIN...5/12/23

The Hootenanny Dash will consist of Non-Wing Micros, Turf Tire Micros, and Mini Mods all racing against each other with the following rules in place for parity!...Understand that we have studied the lap times over the past few seasons and feel that these rules give a level playing field among different cars. We reserve the right to modify/adjust these rules if the need arises.

--Mini Mods must meet all "Oklahoma Mod 600" rules with the following exceptions:

- Minimum rear tire air pressures are:
  - Heats...8 psi left and 12 psi right
  - Features...6 psi left and 10 psi right
  - No bleeders allowed

--Non-Wing Micros must meet NOW600 Non-Wing rules with the following exceptions:

- Minimum rear tire air pressures are:
  - Heats...10 psi left and 15 psi right
  - Features...7 psi left and 12 psi right
  - No bleeders allowed

--Turf Tire Micros

- Red Dirt Raceway Turf Tire Nationals Rules and they can be found under the Rules/Tabs button at [RedDirtRaceway.com](http://RedDirtRaceway.com)
- No bleeders allowed

--Air pressures will be measured immediately(within five minutes) after the race with our gauge.
