Re: Wheel Covers

Effective Date: May 9, 2024

Left side wheel covers/mud plugs on all cars in weekly racing competition at Brewerton and Fulton Speedways may be made up of foam or similar soft construction only. Plastic, lexan, aluminum or similar hard disc style covers are not permitted for use on left front or left rear wheels. This applies to all cars in all classes.

For right side wheel covers, teams are required to follow the rules established by the sanctioning body for their respective class for allowable applications and mounting. Additionally, however, at Fulton and Brewerton all wheel covers must be clearly labeled with the car number and may be attached with steel bolts only, regardless of the number of attachment points. No dzus fasteners of any kind.

Failure to properly secure or properly label wheel covers will result in a fine and/or disqualification at the discretion of track management.

For more information, call (315) 638-4056 or email marketing@brewertonspeedway.com.
